

## **Solmetex Helps Promote Free Dental Care to the Underserved with Donation to Mission of Mercy**

### **FOR IMMEDIATE RELEASE**

Northborough, MA, April 24, 2017 – Solmetex, LLC, the dental industry leader in amalgam separation for the past 16 years, is proud to announce their continued support for America’s Dentist Care Foundation, Mission of Mercy with a product donation of its Hg5 product line valued at over \$30,000 dollars.

“Solmetex is proud to be associated with a world class organization such as America’s Dentist Care Foundation and Missions of Mercy. Their dedication to providing dental care to those in need, in a safe and friendly environment is truly life changing, to not only those who receive care, but also to those who volunteer their time and services.”  
– Michael Toole, VP of Sales and Marketing.

Founded in 1991, Mission of Mercy provides free oral healthcare, and dental care to uninsured or underinsured adults and children across the United States. Mission of Mercy now has 35 mobile clinics that provide full service dental care to more than 25,000 patients each year. Solmetex is supporting their mission by providing Hg5 Collection Containers for every clinic they host throughout the year 2017. Our Hg5 series of Amalgam Separators insures the safe removal of mercury and other harmful metals from our dental practice waste water in effort to reduce contamination of our public water supply.

“ADCF couldn’t do what we do without the AMAZING support of companies like Solmetex. The Solmetex Hg5 amalgam separators are part of what makes the ACDF’s equipment support of Missions of Mercy/free dental clinics across the USA happen with such attention to detail/safety. THANK YOU Solmetex!” – Bill Blasing, Executive Director, America’s Care Foundation

Solmetex is a world leader in water science, amalgam separation technology and waste removal compliance, enabling dental offices to confidently run their practices safely and with a clear conscience. With our proven experience and end-to-end service, we are a total solution provider for dental practices.
