PRESS RELEASE

May 9, 2019

RE: SOLMETEX INTRODUCES Hg5 SNAP CAP FOR Hg5 COLLECTION CONTAINERS

NORTHBOROUGH, MA: Effective immediately, **SOLMETEX, LLC** the market leader in amalgam separation, is pleased to announce the launch of the Hg5 Collection Container SnapCap for use on all Legacy Hg5 Amalgam Separator Collection Containers. As an environmentally conscious company, Solmetex continually strives to reduce our impact on the environment, and the implementation of the new SnapCap will greatly reduce Solmetex's carbon footprint by at least 40%. The SnapCap will replace the plastic white shipping sleeve that has been used to package and ship the Hg5 Collection Containers to the recycler. The new SnapCap is highly durable, easy to use and 100% recyclable.

"Solmetex is always striving to provide the customer with the best, most reliable product on the market. The SnapCap will provide stronger and safer shipping capability, easy to use handling all while reducing plastic waste to the environment. It's a win/win all around."

~ Lauren Nagel, Solmetex VP of Finance & Operations

The Solmetex product line provides the "Total Solution" for waste handling and recycling, along with Certificates of Compliance available online 24/7 at www.solmetex.com.
