

## PRESS RELEASE

October 24, 2019

NORTHBOROUGH, Mass. --Solmetex, LLC, a leading global provider of amalgam separation technology and dental waste management solutions, is pleased to announce the appointment of Michael Toole as Vice President of Business Development and Emerging Markets, a new position at Solmetex reporting directly to President Kevin Danahy. Michael has over 20 years of sales, marketing and business development within the dental industry, and has served as National Sales Manager at Air Techniques, and the Director of Sales and Dealer Marketing at Pulpdent.

"Michael's experience, combined with his creativity, has allowed him to drive revenue growth for the companies he has worked for while simultaneously launching new and innovative products to the industry. We are excited to capture these strengths for Solmetex". ~Kevin Danahy

Effective immediately, Michael will lead the business development & global expansion strategy, which will be instrumental to the future growth plans of Solmetex.

"As Solmetex continues to grow and evolve, I am excited to take on this key role, helping to shape the future, both in developing and exploring technologies that create synergies with our dental wastewater category leadership position, as well as defining the go-to-market strategies for the global markets in which we will compete, both today, and in the future.  
~Michael Toole

Solmetex has been the industry leader in the manufacturing of amalgam separators for over 20 years within the dental industry, with a primary focus on keeping dental practices compliant with the ever-changing regulatory environment. The Hg5 series of products are ISO 11143 certified, accompanied with a simple recycling and compliance program that meet all existing and new EPA dental regulation requirements on the handling and disposing of amalgam waste within the dental practice.
